

# SATORI CONSULTING

IT INFRASTRUCTURE SERVICES

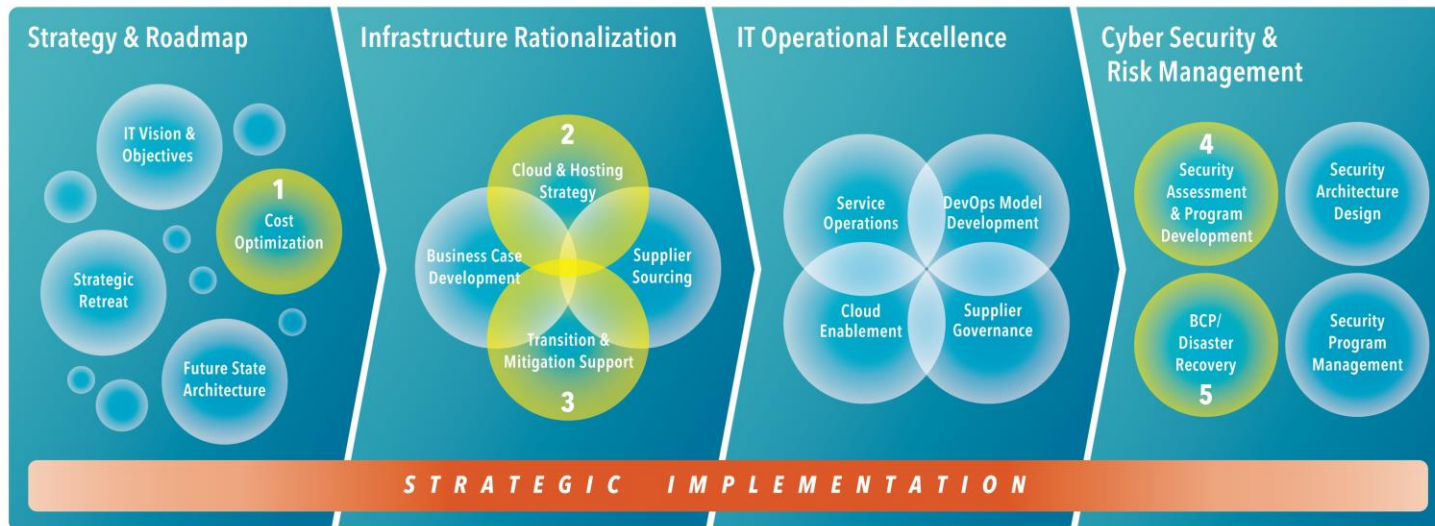

2017

# ADVISORY SERVICES

## IT INFRASTRUCTURE SERVICES

Strategic Services range from Strategy & Roadmap Development through Implementation in key areas:

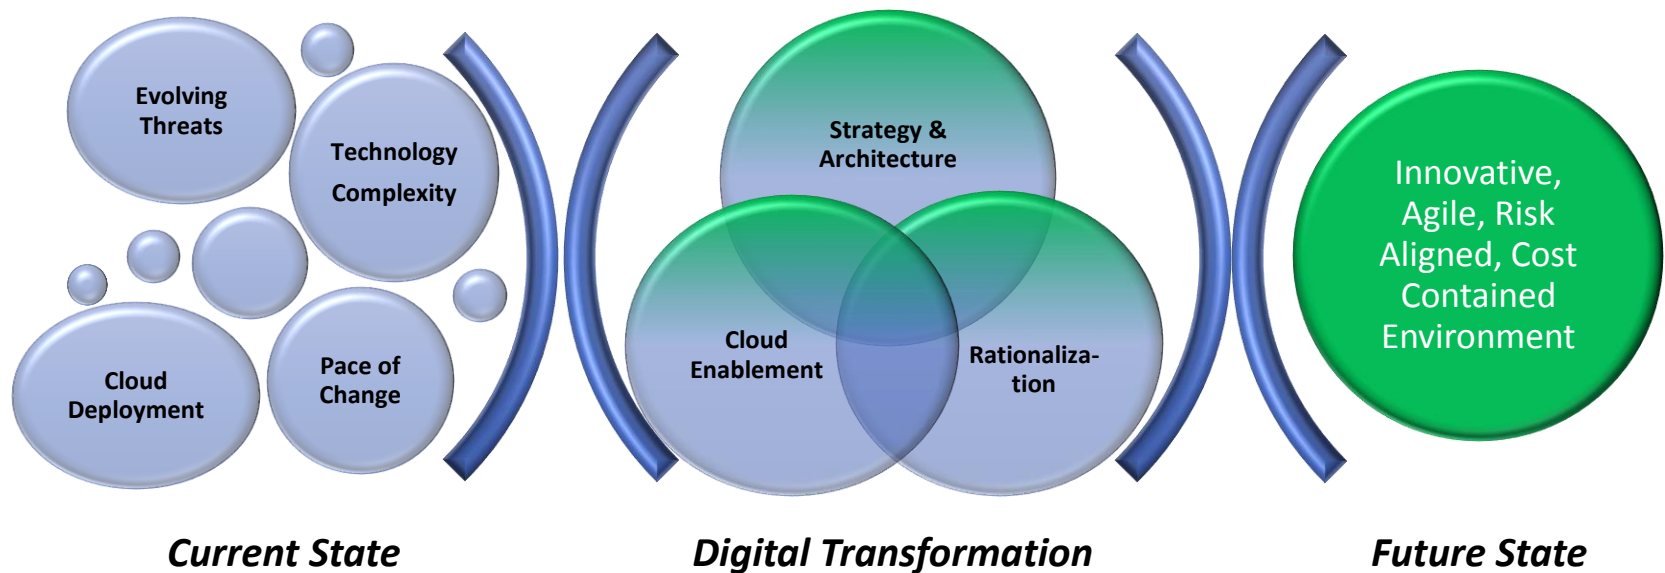

1. **Cost Optimization** – we typically identify 18-24% savings in non-optimized IT environments.
2. **Cloud & Hosting Strategy** – we understand how and when cloud can be leveraged to move from Capex to Opex spend models while establishing flexibility as the market matures.
3. **Transition & Migration Support** – we bring best practice transition management practices to enable rapid migration to the new hosting model while minimizing business risk.
4. **Security Assessment & Program Management** – we balance compliance (PCI, ISO, HIPAA, etc.) and security requirements to deliver real risk management to partner clients
5. **Business Continuity (BCP) & Disaster Recovery (DRP) Planning** – review and development of plans to support IT and business continuity

# ADVISORY SERVICES

## IT TRANSFORMATION

Research\* shows leading class IT organizations cost is 22% lower than their peers and greater effectiveness. This is achieved by focusing on strategy, architecture and governance to eliminate unnecessary complexity.
